

In the Drawings

Please amend Fig. 1 as shown on the enclosed Annotated Sheet 1 (marked-up-in-red copy) thereof, the amendment being required by the Examiner. Replacement Sheet 1 is also enclosed which includes amended Fig. 1. No new matter is added. Please acknowledge receipt and acceptance of amended Fig. 1 into the present application.

REMARKS

Fig. 1 of the drawings is amended to correct an issue raised by the Examiner. No new matter is added.

The specification is amended to correspond to the amendment to Fig. 1 and for amendments suggested by the Examiner. No new matter is added.

The Examiner has provided suggestions for amending claims 1, 2, 5, 7, 21 and 22 to correct informalities. Applicants appreciate the Examiner's suggestions and have amended claims 1, 2, 5, 7, 21 and 22 as suggested by the Examiner, except that Applicants have amended all claims to delete reference numbers. These are appropriate amendments since they are formal in nature and do not add any new matter.

Please note, that the amendment to claim 7 to delete "(6,8)" is not due to the suggestion by the Examiner, and in fact, such suggestion is inappropriate because the third line of claim 7 includes the conjunction "and."

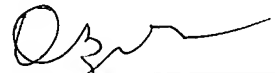

Moreover, regarding claim 20, the claim is not amended as suggested by the Examiner. The Examiner has provided a suggestion for amending claim 20 to correct an alleged informality which does not exist. The Examiner states in line 4 before "grid", first should be inserted. However, claim 20 ultimately depends from claim 4 which recites to all mirror facets, that is, the first **and** the second mirror facets (6,8). Accordingly, no amendment to claim 20 is needed.

This application is now believed to be in immediate condition for allowance, and action to that end is respectfully requested. If the Examiner's next anticipated action is to be anything other than a Notice of Allowance, the

undersigned respectfully requests a telephone interview prior to issuance of any such subsequent action.

Respectfully submitted,

Dated: 8-15-06
